SUPPLEMENTARY INFORMATION: In compliance with section 44 U.S.C. 3507, ACL has submitted the following proposed collection of information to OMB for review and clearance.

Proposed Collection: Evaluation of the State Health Insurance Assistance Program (SHIP), U.S. Department of Health and Human Services (HHS), U.S. Administration for Community Living (ACL).

Need and Use of Information

Collection: The SHIP Customer Satisfaction Survey is a survey of individuals who meet with State Health Insurance Assistance Program (SHIP) Counselors to better understand their Medicare options. SHIP provides free, one-on-one counseling to the public, and the SHIP Customer Satisfaction Survey will be used to measure individuals' satisfaction with their counseling experience.

The State Health Insurance Assistance Program (SHIP) was created under Section 4360 of the Omnibus Budget Reconciliation Act (OBRA) of 1990 (P.L. 101-508). SHIP was created to provide grant funding to states/territories, who in turn provide "... information, counseling, and assistance . . . to individuals who are eligible to receive benefits under title XVIII of the Social Security Act" (Medicare). SHIP grants help Medicare beneficiaries and their families to obtain information about topics, such as Medicare enrollment (Parts A and B), Medicare Advantage plans (Part C), prescription drug coverage (Part D), Medicare Savings Programs (MSPs), supplemental insurance policies (Medigap), Medicaid issues, and other health insurance issues. The survey will gauge individuals' satisfaction with the services provided by SHIP counselors. While the SHIP program currently tracks the number of contacts the program makes with individual citizens, as well as descriptive information about counseling sessions such as topic, location, and beneficiary demographics, the program does not track outcome measurements, including customer satisfaction.
